INVESTMENT PHILOSOPHY	OBJECTIVE	PORTFOLIO CONSTRUCTION	INVESTMENT RISKS
To prudently invest in outstanding infrastructure and utilities companies at attractive prices that exhibit highly predictable cashflows.	To achieve attractive risk-adjusted returns over the medium to long term; while reducing the risk of permanent capital loss.	Relatively concentrated portfolio of typically 20 to 40 investments. Typical cash and cash equivalents exposure between 0 - 10%.	All investments carry risk, returns are not guaranteed and there is a risk that investors may lose money on any investment they make. The Fund's Product Disclosure Statement (PDS) sets out the significant risks relevant to the Fund. You can view the PDS at <a href="http://www.magellangroup.com.au">www.magellangroup.com.au</a> .

## MONTHLY SUMMARY

The portfolio recorded a positive return in January despite the ructions in the broader market brought on by the market focus on the potential impact of DeepSeek on US AI dominance and the implications for chip and power demand.

The key contributors for the month were Aena, Norfolk Southern and Atlas Arteria. Shares in Spanish airport company Aena were lifted by better-than-expected December traffic and January international seat capacity numbers. US Class 1 rail operator Norfolk Southern rose following a result that beat market earnings expectations while Atlas Arteria rose on better-than-expected Q4 traffic and revenue.

The key detractors for the month were Sempra Energy, United Utilities and Crown Castle. Shares in US integrated power company Sempra Energy declined as the market assessed that catastrophic fires in other parts of California could lead to a large drawdown in the State wildfire fund, reducing future protections or potentially leading to companies having to contribute more to the fund should the State seek to replenish it. UK water company United Utilities (UU) fell as unlisted peer Thames Water edged towards insolvency and was threatened with being put into a Special Administrative Regime – a form of temporary nationalisation – causing concern in the market despite UU accepting the AMP8 regulatory determination and confirming dividend guidance. Crown Castle declined on further news reports about the potential sale price for its optic fibre business, which was below market expectations.
